Senior HR Business Partner | People Strategy & Organizational Effectiveness | Global / Remote Teams

Senior HR Business Partner with 14+ years partnering with VPs, Directors, and C-suite leaders across APAC, Europe, the Americas, and the GCC. I turn business strategy into workforce structure, run performance management and employee relations at scale, and bring data into leadership decisions. Proven across M&A integration, restructuring, rapid scale, and build-from-scratch People mandates in product-led and technology environments — the fast, distributed, ambiguous settings where strategy and hands-on delivery have to coexist.
